 Metals	<input type="button" value="Select element"/>
 Semi-conductors	<input type="button" value="Select element"/>
 Non-metals	<input type="button" value="Select element"/>
 Inert gasses	<input type="button" value="Select element"/>
 Lanthanides en actinides	<input type="button" value="Select element"/>

Each chemical element contains a link to a page that explains its [chemical properties](#), [health effects](#), [environmental effects](#), application data, an image and also information of the history/inventor of each element.

	I	II										III	IV	V	VI	VII	VIII
